SUMAN MODAK

DevOps Engineer | AWS | Kubernetes | Terraform | Ansible | CI/CD | GitOps | DevSecOps

Hyderabad, India | +91 8972136544 | sumanmodak456@gmail.com | LinkedIn | GitHub | Portfolio

PROFESSIONAL SUMMARY

DevOps Engineer with 3 years of experience in CI/CD, GitOps and infrastructure automation on AWS and Amazon EKS. Built Jenkins pipelines that cut deployment time by 80% and Argo CD ApplicationSets that auto-sync applications, using modular Terraform and Ansible. Independently built Watchify, a microservices platform on EKS with integrated DevSecOps security scanning. Hands-on with Kubernetes, Docker, Prometheus, Grafana, Zabbix, ELK and Python.

TECHNICAL SKILLS

Cloud: AWS, Amazon EKS, EC2, VPC, IAM, S3, RDS, ALB, ACM, CloudWatch, GCP, GKE, Compute Engine, App Engine

Kubernetes & Containers: Kubernetes, EKS, Docker, Helm, NGINX Ingress, RBAC, Deployments, Services, StatefulSets, ConfigMaps, Secrets, PV/PVC

CI/CD & GitOps: Jenkins, Argo CD, Git, GitHub, Azure DevOps

IaC & Automation: Terraform, Terraform Modules, Remote State, Workspaces, Ansible Adhoc , Playbooks, Roles

Monitoring: Prometheus, Grafana, Zabbix, CloudWatch, ELK

DevSecOps: Trivy, OWASP Dependency-Check, SonarQube, HashiCorp Vault, IAM/IRSA, Security Assessment, Secrets Management

OS & Scripting: Linux, Ubuntu, Bash, Python | **Networking:** TCP/IP, DNS, CIDR, NAT, SSL/TLS

PROFESSIONAL EXPERIENCE

Jio Platforms Limited — DevOps Engineer | Hyderabad **Dec 2023 – Present**

Jio SmartLiving — IoT based Smart Home & Security Automation Platform using MQTT

- Built and manage **Jenkins CI pipelines** to build and push images to registry with parallel build and GitOps Tag updates, reducing deployment time by **80%**.
- Implemented **GitOps-based CD** using **Argo CD** on Amazon EKS; configured **ApplicationSet with Git Generator** to automatically discover application folders and create/synchronize Argo CD Applications.
- Provisioned multi-environment infrastructure with **modular Terraform**, S3 **remote state,** DynamoDB **state locking**, and Terraform Workspace.
- Automated **Linux configuration management and security Assessments** using Ansible, reducing manual effort by **85%**.
- Managed **Kubernetes and Docker-based workloads**, supporting deployments, scaling, troubleshooting, production operations, and application reliability.
- Implemented **Zabbix monitoring** with Telegram alerts for VM-based infrastructure and **Prometheus**, **Grafana**, and **ELK Stack** for monitoring and log management on Amazon EKS, supporting approximately **99.9%** service availability.
- Managed **Docker Swarm** workloads and supported infrastructure **migration from on-premises environments to AWS** and the transition toward Kubernetes.

Jio Device HeartBeat — High-Volume Monitoring Platform

- Supported a platform monitoring real-time health of 33M+ JioFiber, AirFiber and IoT endpoints, processing about 75B events daily.
- Performed **incident response, troubleshooting, root-cause analysis, release support, and observability** activities for high-volume, low-latency monitoring workloads.

PROJECTS

Watchify — Personal DevOps Project **June 2026 – July 2026**

GitHub: github.com/t20suman-glitch/watchify

- Built and deployed a **4-service microservices platform on Amazon EKS** using Docker, Terraform, Jenkins, Helm, and Argo CD.
- Implemented Jenkins CI/CD with **DevSecOps quality gates** using Trivy, OWASP Dependency-Check, and SonarQube for container, dependency, and source-code security scanning.
- Provisioned AWS infrastructure using **modular Terraform** including VPC, public/private subnets, NAT Gateway, EKS, S3, IAM, and networking components with S3 remote state and state locking.
- Configured **IAM Roles for Service Accounts (IRSA), AWS Load Balancer Controller, and ALB-based ingress** for secure AWS access and application delivery.
- Created reusable Kubernetes manifests for **Deployments, Services, StatefulSets, ConfigMaps, Secrets, ServiceAccounts, Ingress, and Persistent Volumes** with MongoDB persistence.

EDUCATION

B.Tech – Electronics & Communication Engineering | JIS College of Engineering, Kolkata **2019 – 2023**

CGPA: 8.83

CERTIFICATIONS

- Microsoft Certified: Azure Fundamentals (AZ-900) | March 2025
